Unit: Enviolyte ELA-3000
Pump: Grundfos Digital Dosing
Extras: Water Softener, Anolyte Fogger, Iron Filter, Inline ORP Meter
Dosage: 3% Anolyte
Previous Water Treatment: Solu-acid & Peroxide

“We are probably saving 500+ more pigs per year.

Doing better days to market, we were able to increase by 30 sows and push more pigs through the barn per year.

As an result, we are also finding extra revenue in feed of around \$40,000/annually ”

- Camrose

Question & Answer:

- | | |
|--|---------|
| 1. How do you control Strep? | Anolyte |
| 2. How do you cure Greasy Pig? | Anolyte |
| 3. How do you lower feed conversion? | Anolyte |
| 4. How do you increase Weight gain post wean? | Anolyte |
| 5. How do you eliminate Starve-outs post wean? | Anolyte |
| 6. How do you eliminate Scours? | Anolyte |
| 7. How do you eliminate Discharges? | Anolyte |
| 8. How do you deworm whole herd? | Anolyte |
